

The world is shifting towards renewable energy

Electricity storages and renewable heat & cold are key success factors

The energy future for buildings

Electricity storage, heating and cooling in one device

	GREEN-Y — WE SHIFT ENERGY —	Battery
Amortization	5 years	13 years
CO ₂ savings	10%	3%

Lifetime
20 years

100%
recyclable

Works with
air and water

Market potential

Wide range of use cases in rapidly growing market

Commercial

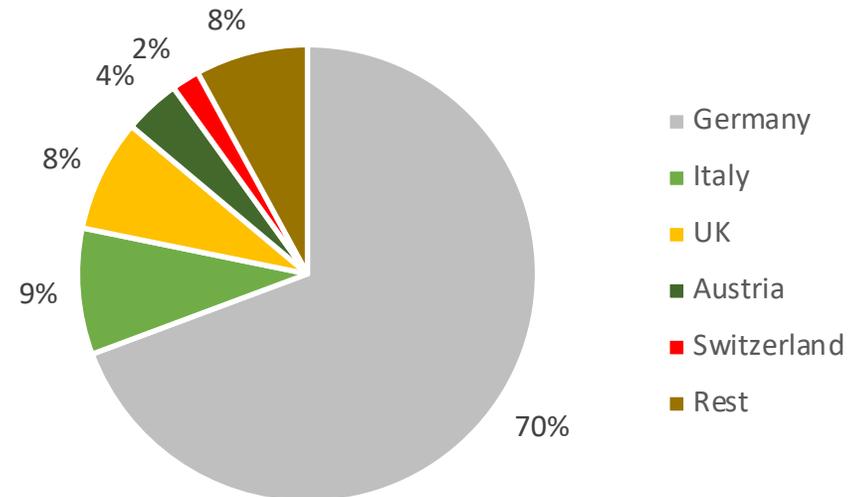

Residential

Industrial

Market for electricity storages in local applications in Europe 2020:

- Size: **1 bn. CHF**
- Growth rate: **+54%**

Roadmap

Scaling planned along countries and business models

- ✓ Patent
- ✓ Prototype
- ✓ 8 LOIs
- ✓ 7 Employees
- ✓ 2.5 mio. CHF
- ✓ 2 Locations
