**INERGIO**

# Miniaturized Power Generator

## Compact and light

250 W/kg

3.6 kWh/kg

## Fuel Flexible

Today

2030

60%

100%

Lower CO2 emission

## Modular and Scalable

From 50 to +1000 W

# Reliable, lightweight electricity everywhere

Remote monitoring and communication

IoT devices & smart cities

Digital mobile communication

Critical inspections

Surveillance and control systems

Long-range autonomous vehicles

# Customer offering

	Power (W)	Average Selling Price (kCHF)	Target Weight (kg)	Lead time
 InoPower 1.0	50 → 150	5.5	2.5 → 3.0	6 months
 InoPower 4.0	200 → 600	9.6	2.5 → 4.0	12 months
 InoPower X.0	+1000	12	6.0	24 months

# Who we are?

**Tested MVP** – We have tested our MVP, capable of delivering up to 30W outdoors and currently we are finalizing our reliability testing

**EPFL spin-off** – the company was in corporate in 2020 and we are currently a team of 5 FTE, with a vision of delivering **Green Electricity** wherever is needed.

**Raised CHF + 2.5 Mio**– closed Pre-seed round of investment in Jan 2022 to complete product development and initiate the commercialisation

## What are we looking for?

### Partners

Implement our technology and pilot testing

### Investors

**Q2 2023: CHF 3.5 Mio**

Let's join forces to power  
**360 000 units/year**  
in a **clean** and efficient way
