As alternative to the lettering : see above

1 Logo on the panel is included.
Any further logo CHF 150.-

Exact dimensions of the graphics:
according to layout page 2

601.014 Wall elements with print

Print on wall elements

Graphic dimensions: L: 984 mm x H: 2314 mm

Price: CHF 295.- per wall element (1 m)

Graphic Options

Closing date:

ruedi.scheidegger@syma.ch

12 May 2026

All images are symbol images

601.020 Fabric print

Print on fabric full size, over whole walls

Exact graphic dimensions: on request

Price: CHF 370.- (per running meter)

601.025 Print on counter front panel (601.135)

Graphic dimension: L: 947mm x H: 1005mm

Price: CHF 205.- | Quantity: _____

601.026 Print on counter side panel (601.135)

Graphic dimensions: L: 447 mm x H: 1005 mm

After May 13 2024, production is only possible after consultation.

Deadlines for delivery of the print data:

Sending of the print data until May 12 2026.

From May 13 2026 there will be an express surcharge of 30%.

After May 19 2024, production is only possible after consultation

Please note:

Wall elements (as well as furniture) are rental items.

We must charge for damaged wall elements (holes, traces of adhesive, etc.) or graphics that have not been removed and which the exhibitor has attached himself (CHF 80.- per linear meter).

DATA PREPARATION FOR THE PRODUCTION OF GRAPHICS

General requirements for data preparation for digital printing of wall components and textile seal

WALL ELEMENTS AND TEXTILE CANVAS

DATA PREPARATION

- 👉 Printable PDF, ideally >100dpi
- 👉 In order to avoid flashes, we require a **3 mm bleed** (24 mm for textile sails)
- 👉 Create data in scale 1:1 or 1:10, please label accordingly (...1to10.pdf)
- 👉 For open data: Send fonts and all links
- 👉 Do not set logos and texts too close to the edge areas
- 👉 Send data **WITHOUT** trim marks, registration marks and colour control strips
- 👉 Arrange colours in CMYK or PMS Pantone Solid Coated

TRIMS FOR TEXTILE CANVAS

- 👉 Due to the canvas production, it is necessary that the files supplied to have trims
- 👉 This trims are **24 mm** on each side of the canvas
- 👉 You will receive the visible dimensions of the individual canvas from your SYMA project manager

Example:

W 1938 mm x H 2468 mm (visible dimension)

W 1938 mm + 48 mm (24 mm per side) = 1986 mm

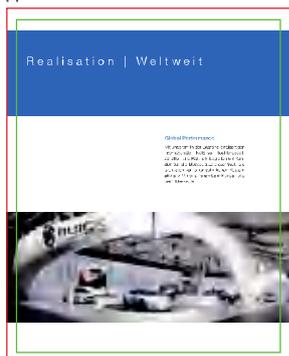

W 2468 mm + 48 mm (24 mm per side) = 2516 mm

PRODUCTION DIMENSION including TRIM = W 1986 mm x H 2516 mm

24 mm / on each side

finished canvas

||

- printed area / PRODUCTION DIMENSION
including TRIM = W 1986 mm x H 2516 mm
- visible area / VISIBLE DIMENSION
excluding TRIM = W 1938 mm x H 2468 mm

DATA DELIVERY

- 👉 In principle incorrect delivered data will not be used nor adapted. If necessary and upon your request, we could adapt your data (will be charged with CHF 120.00 per hour)
- 👉 The printable data has to be supplied no later than the deadline given by your SYMA project manager
In case of delays in supplying data or if unprintable data is supplied, we cannot guarantee an on-time production
- 👉 With a data volume of < 2 GB you can send us the data via **www.wetransfer.com**
- 👉 With a data volume > 2 GB please contact your SYMA project manager

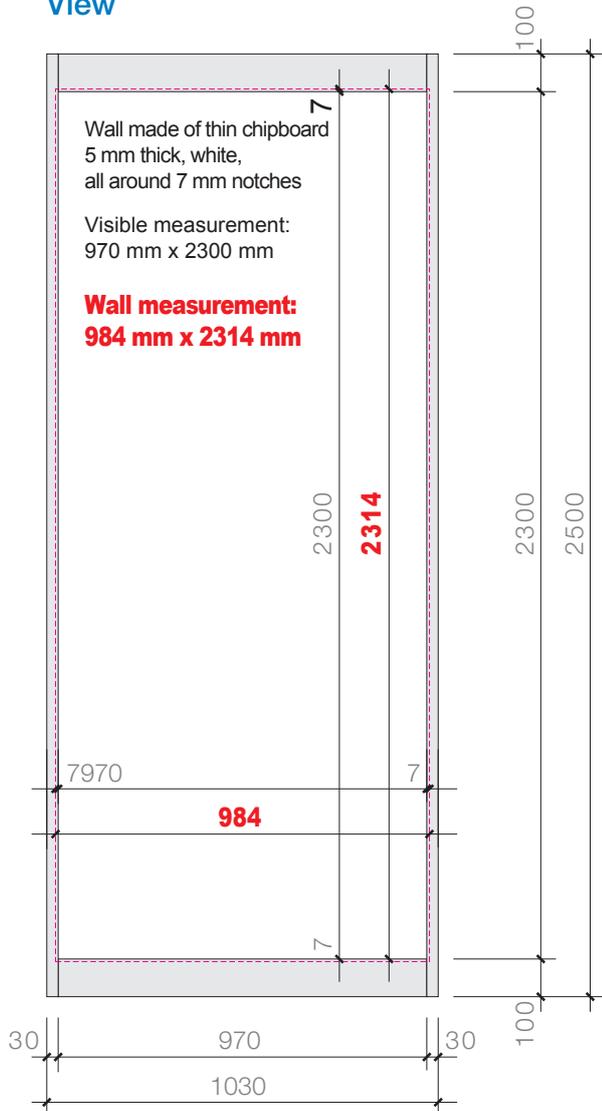

MEASUREMENTS - SYMA System components

Information on the measurements of the SYMA system components including measurements for preparation of graphics

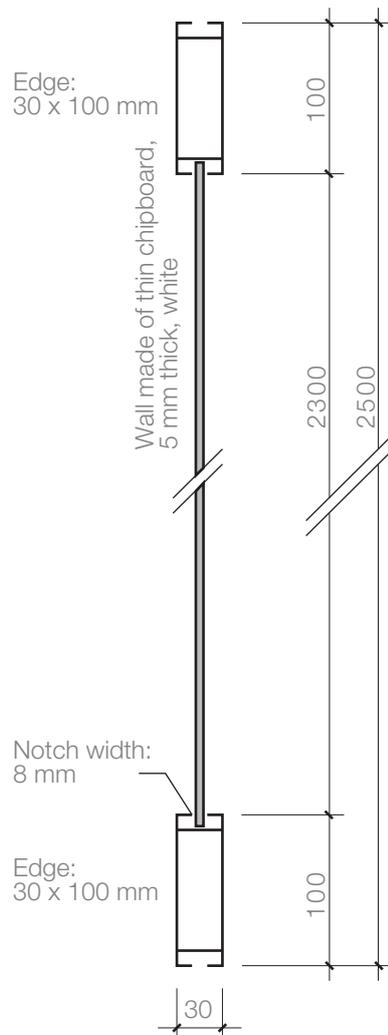

SYMA - Wall components / SYMA System 30 (Standard WE)

View

Detailed section

Graphics - measurements

**984 x 2314 mm
the graphics
must be arranged
in this measurement**

**970 x 2300 mm
Visible measurement**

Measurements and packaging

Wall components thin chipboard white 5 mm material thickness

Board measurement / graphics measurement: 984 x 2314 mm

Trim is the area from the visible measurement to the red line.
This area is also to have graphics data, however hidden in the profile notch (do not place any logos and writing there)

Actual visible measurement: 970 x 2300 mm

Distance of the components from each other 30 mm + 7 mm
four-sided notch covering (Trim) in framework profile

View of wall components next to each other
